Consent to The Organic Acidemia Natural History Registry

Consent Overview

Those eligible to participate in our study include:

Participant: An individual diagnosed with an organic acidemia who is at least 18 years of age, the age of majority in their state, province or country, and able to provide consent for themselves.
Legally Authorized Representative: an individual (such as a family member or guardian) who is legally responsible for the healthcare of the Study Participant who is a minor (child under the age of 18) or an adult who is unable to contribute their own data. This individual must also be at least 18 years of age and the age of majority in their state, province or country.
Designated Representative: A legal adult who was the caretaker of an individual who passed away from an organic acidemia, defined as a spouse, parent, sibling, offspring, close relative, close friend, guardian and/or significant other of the individual who had an organic acidemia and who had knowledge and participated in their medical care. This individual must also be at least 18 years of age and the age of majority in their state, province or country.

Please tell us about the Participant you would like to enroll in this study. *

☐

They are a minor or an adult who is unable to contribute their own data. I am currently their caregiver.

☐

They were a patient with an organic acidemia. I participated in their medical care.

Consent to Participate in the Organic Acidemia Natural History Registry and to Allow Data to be Shared for Future Research

Title: Organic Acidemia Natural History Registry
Principal Investigator: Kimberly Chapman, MD PhD
Phone: 323-361-2178
E-mail: kchapman@chla.usc.edu
Sponsor: Organic Acidemia Association

Key Information
You are invited to take part in a research study for individuals with an organic acidemia on behalf of the person in your care who is not able to provide their own consent. Your role is called Legally Authorized Representative (LAR). We hope that this form will help you decide whether or not to participate, but you can also call or e-mail the study staff at the contacts above if you have any other questions.
Things you should know:
We are doing this research

1. To characterize and describe the organic acidemia population as a whole and to gain a better understanding of the spectrum of clinical variants in individuals with organic acidemias of all stages. This includes but is not limited to collecting information on: diagnosis, treatment, medical history, socio-economic environment and outcomes.
2. To understand the changes in organic acidemias over a lifetime as well as to gain information on clinical practice patterns and variations over the course of treatment.
3. To facilitate the development of best practice and management guidelines and recommendations to optimize care, improve quality of life and outcomes and standards of care.
4. To provide information regarding ongoing research studies and clinical trials. You, on behalf of the Study Participant, may consent to be contacted by researchers for recruitment into Institutional Review Board (IRB) approved studies.

Authorization

The following statements are intended to:

- Make sure that you have had the time and opportunity to consider whether you and the Study Participant want to participate in this registry;
- Have had your questions answered; and
- Agree to participate in the study as described.

You will be asked to acknowledge:

- That you have read the consent form and have no further questions about the registry and the Study Participant's participation;
- That you wish to provide the Study Participant's personal data to the registry for the purposes of the Study;
- That you allow for this data to be used for future research;
- That you have explained the study to the Study Participant to the extent they are able to understand; and
- That you are of legal age.

This is a web-based form. Your digital signature is the same as if you had signed your name to a paper document. By answering "Yes" to all of the following statements, you are giving your consent to participate in the Organic Acidemia Natural History Registry on behalf of the Study Participant. After signing, a copy of the consent form will be e-mailed to you. If you cannot comfortably answer "Yes" to these statements, please do not check the consent boxes in the following section.

☐ I have read this Consent and Authorization Form to provide the Study Participant's personal and medical data to be shared for the purpose of research. All my questions about the Organic Acidemia Natural History Registry have been answered to my satisfaction, and I understand the purpose of the registry and the risks of participation.

☐ I wish to provide the Study Participant's research data to the Organic Acidemia Natural History Registry for the purposes described above under Study Aims.
